MESSAGE FROM THE HEADTEACHER

During our first term back in September, all students were familiarised with the Fire Evacuation Procedure. This week we had an unannounced fire drill and I am proud to say that all students and staff followed evacuation procedures onto the school field in a quick and sensible manner.

Our extra-curricular clubs are becoming increasingly popular. We will feature each week a taster of what has taken place and we will post updates on our social media sites (Twitter, Facebook, Instagram). I hope this will enable you to gain an insight into the rich and diverse opportunities within the school.

On Thursday 11th November, the school held its Armistice assembly. Mr O'Brien wrote and read a touching poem and the school observed a minute's silence in memory of those who have fallen in all conflicts since the Great War.

Next week, the Trial Examinations begin for our Year 11 and Year 13 students and continue for two weeks, these examinations will benchmark our student's current attainment and highlight if improvements are required over the coming months. We wish our students the very best in these assessments.

We held our online Sixth Form Open Evening on Thursday 11th November 2021 for our Year 11 students. We appreciate the experience is not the same as coming into school, but were pleased to have many parents join our event. We hope to have answered your questions, if you do have any further questions regarding the Sixth Form or about the A Level subjects offered, please email sixthformadmission@beths.bexley.sch.uk. Next week we will publish on our website information for external students who wish to join the Sixth Form. This will include our promotional video, our Sixth Form Prospectus, our Sixth Form Options Booklet and details on how to apply. Our students will receive the same information once they return from the Trial Examinations. We are also planning to run bookable tours for external students from the end of November until the end of January which is the deadline for applications.

Our Sixth Form Further Mathematicians entered the online version of the UK Senior Mathematics Challenge. It is a multiple choice paper of 25 questions set over 90 minutes, which awards marks for correct answers and subtracts marks for incorrect ones. Questions not attempted do not affect the total. The type of questions set are not necessarily part of the GCSE or A Level syllabus but are challenging. I spoke to one of the groups afterwards and they said that they had enjoyed the competition and the experience. We look forward to receiving the results in the coming weeks.

I hope you have a lovely weekend.

Many thanks
Richard Blyghton.

COVID TESTING

In line with government guidelines, students are encouraged to test at least twice a week and record their results on the school's TestRegister website via the email sent to you.

The poster features a background image of two young men, one in an orange hoodie and one in a blue hoodie, walking outdoors. The HM Government logo is in the top left, and the NHS Test and Trace logo is in the top right. A yellow text box in the center contains the main message. At the bottom, there is a call to action to report test results and a link to the website.

YEAR 7 ENGLISH

In English, we were lucky enough to get a free class set of The Week magazine to share with our students last week. Students in each Year 7 English class spent time reading independently through the special Cop26 edition and this prompted a really exciting and interesting class discussions about climate change and what we can do to help the crisis.

Here are some of those discussions and comments:

"It's sad how we continue to trade with and fund countries who are the main causes of climate change. Even with their large economies they do not seem to care about our world. Many of them use child slavery to make all this plastic that wastes our precious planet. Remember: there's no second planet Earth." - Marvellous, 7W

"My grandparents live in India and climate change has really affected them as recently there has been a massive flood. Their house has a staircase so not all of it was flooded however, a house nearby was destroyed and fell into the river. The house has still not been found. I want everyone in India to stay safe, especially my grandparents. I want the world to live a good life. " - Aiden, 7W

YEAR 7 ENGLISH

"Two college students and their professor discovered that you can grow mushrooms from coffee grinds. After a while, they also noticed that after the mushrooms were grown, the coffee grinds were so rich that you could also sell those and they made a fortune - £100,000 000! This is an example of how we can use waste, use the waste from the waste and still make money from it." - Arvin, 7W

"In class we discussed the topic of Cop26 and how we can help stop global warming. Some of the topics we discussed were transport; the most eco-friendly ways to travel both short and long distances and also price. We figured that the two most eco-friendly ways to travel are walking and cycling, however, this may be very difficult for longer journeys and may not get us to our destination quickly enough. Public transport is an eco-friendly option but can be expensive. By the end of our discussion we agreed that walking and cycling are best for short trips and using electric cars is the best solution for longer journeys." - Luca, 7W

THE IMPORTANCE OF DIWALI

When is Diwali?

Diwali follows the Hindu lunar calendar and its date changes annually – it's celebrated on a moonless night in October or November. This year Diwali was celebrated on Thursday 4th November.

Why is Diwali celebrated?

Every region in India has different traditions for celebrating this festival, but there is agreement that Diwali represents the triumph of good over evil, light over darkness and wisdom over ignorance. This is linked to the ancient legend of Lord Rama, who was deprived of his kingdom and sent into exile for 14 years. Diwali celebrates Rama's eventual defeat of the evil spirit Ravana, and his triumphant return to his home.

How is Diwali celebrated?

The weeks leading up to Diwali are traditionally a time for redecorating the home, buying new clothes and jewellery, and exchanging gifts such as sweetmeats, dried fruits and nuts. This is the season for dinner parties, outdoor food festivals and craft fairs, all of which help build up excitement ahead of the main Diwali celebration.

What food is eaten during Diwali?

Each region has its favourite dishes, most are vegetarian but in some households, there will be a presence of meat.

Savoury snacks could include samosas, bhajis, aloo tikki (griddle-cooked potato patties) and channa bhatura (spiced chickpeas and puffed bread).

There are very different types of the main meal, which may feature meaty curries or a wide variety of vegetarian Indian dishes, including dhals and pulses. But the most important of them all is, sweetmeats ('mithai') these are the best part of the food of Diwali. They're made with dairy products, which has religious significance and are offered to both gods and guests.

ARKWRIGHT ENGINEERING SCHOLARSHIP

What do you get from an Arkwright Engineering Scholarship?

- **Prestige.** The scholarship is well respected by top universities and will help you hugely at university application.
- **Contacts within the field of engineering.** All scholars are given many opportunities to attend 'Engineering Experience Days' or to network with other engineers and scholars. This can lead to enhanced job opportunities.
- **Finance.** All scholars are given money – currently £600 - to put towards their engineering endeavors (projects, equipment etc.) during Yrs 12 & 13.

This year's Arkwright Engineering Scholarship is now open for potential Year 11 candidates. This is a prestigious award that gives a great opportunity for the chosen applicant to gain funding and mentoring for Engineering. This scheme also opens a whole world of opportunities for University and Industry placements in Engineering.

I will be putting together a short list of potential candidates in the coming weeks and would like you to come and see me if you feel you have the potential to become an Arkwright Engineering Scholar.

Applicants must be high achieving in any subjects directly related to Engineering i.e.

- Science
- Technology
- Mathematics
- Electronics
- and have the potential and ambition to pursue a career in this field. Engineering is a very competitive industry and this Scholarship will help you stand out from other potential employees in the future.

Please see Ms Commerford or Mr Beaney for more information.

SCHOOL LOCKER RENTALS

Currently, the school works in partnership with a company to provide your child with the opportunity to rent a locker. The cost of hire is £22 per academic year (12p per day if hired at the start of the school year), and the arrangement is formed between the company and the parent/carer. Payment is made online, directly to the company. The lockers are large and will hold a number of heavy and cumbersome items. They are extremely robust and are secured with a digital lock to remove the risk of losing keys.

In the past, the scheme has been very successful however, this year the number of rentals has dropped considerably. We have been advised by the company that if numbers remain at this level, it will not be financially viable to continue with the current arrangement. This will result in the removal of the lockers from the school site.

Should you wish for your son to continue to be provided with the opportunity to store equipment safely on site, and not have to carry a heavy bag around all day, I would urge you to investigate the locker scheme.

SCHOOL LOCKER RENTALS

Secure

LOCKER.RENTALS

LOCKERS, FROM AS LITTLE AS 12p PER DAY. SIMPLE. SAFE. SECURE.

Kids these days carry a lot of expensive equipment, from trainers and clothing, to books and sportswear. So, it's scary to think that the average student loses 7 items per month.

Having a school locker can help to reduce these numbers. Creating a constant, secure location for students to store possessions safely. With the added advantage of keeping books dry and promoting better back health.

And, when you compare the cost vs replacing a school jumper, the decision is simple.
