

Beths Grammar School

an 11 – 18 selective school with academy status

Headteacher: Mr R J Blyghton

Dear Parents/Carers,

I am writing to inform you of an opportunity for students in Maths sets 2, 3, and 4 to achieve an additional qualification: **Level 2 Further Mathematics**.

To prepare students for this, I will be delivering **lecture-style lessons every Monday at 7:30am, starting from Monday 3rd November**. Attendance will be **compulsory** for any student who wishes to pursue this qualification. If a student's attendance at the sessions is poor, it is likely that this opportunity will be withdrawn. Please note that these sessions will cover only the Level 2 Further Mathematics curriculum and will not include content from the GCSE Mathematics course.

Students will also be expected to complete practice questions independently outside of lessons in order to consolidate their understanding.

Once all the content has been delivered, students will sit an internal assessment. If their result demonstrates sufficient understanding, they will be entered for the official examination in May/June. If not, they will instead continue to focus solely on their GCSE Mathematics.

This is an excellent opportunity for students to stretch themselves mathematically and to achieve an additional qualification that will support their academic progression.

If your child is interested in participating, please **click on the following link and complete the form to confirm their interest by Wednesday 15th October**:

[Register of Interest](#)

Thank you for your continued support. Please do not hesitate to contact me if you have any questions.

Yours sincerely,

Mr Iqbal

KS4 Co-ordinator of Mathematics
