 - Reform
 - China-UK relations

Resources

Coursebooks:

You could revise all the topics we learnt so far from the AS level textbook and the booklet of Theme 3 and 4.

Please make sure that you go through all the grammar points on the textbooks and make a summary of the ones that you intend to use in your speaking and writing. This list should contain at least 20 different advanced grammar structures.

Please also read the Cultural Snippet section one more time to revise the social and cultural context. Please write 2-3 sentences in Mandarin to summarize each cultural snippet. (try to use the topic-related words when writing the summary)

Revise all the translation tasks you've done on the textbooks.

Gochinese E-learning Platform:

Please complete at least 2 more reading and 1 more listening practice of each topic (8 topics in total) to practice your reading and listening. Make sure that you check the answers, go back to the text to figure out why and summarize the key words/phrases from the reading/listening.

Quizlet Vocabulary Sets:

You should revise across all themes from the Quizlet vocabulary sets on your Quizlet class group – you have access to all the key words we covered for all the themes. Please make sure that you also listen to audio of each flashcards to be familiar with the sounds. You need to be very familiar with all these words in both reading and listening

Revision for the book and film:

Your teacher will make available any resources on the book and film in 'class materials' in Teams when you are back. You can also make use of the study guides/booklets you which was issued before summer holiday.
